

*One stop source for Food & Beverages,
Logistics & Corrugated Packaging entities*

About Us

Our group of companies has been established since 1980, delivering excellence for decades.

Our notion had always been to deliver quality services in the field of Food & beverages through processing high quality fruit pulp, fresh and frozen fruits and vegetables, Fruit Concentrates, Packaging's (Aseptic & Tetrapak), Farming, Restaurants And Alcoholic Beverages. The group has also been in to logistics and Corrugated packaging sectors and till date going stronger and stronger in thriving to reach more milestones in years to come.

The companies have provided and placed great emphasis on and take pride in the personal care we provide to our customers and suppliers all these years. The respective company's processing facilities and associations are strategically located in Chittoor & Tirupati, Andhra Pradesh.

Food & Beverages

Our companies have done processing for world and domestic top beverage companies. We have dedicated ourselves to the development of agro processing and have evolved an integrated approach. We processed the highest quality products in conjunction with strict quality control guidelines. Because of our high quality standards and reliable delivery schedules, we have been able to build and maintain a solid customer base.

Our sister concern company Srini Food Park is India's First Mega Food Park nestled in a sprawling 147-acre space, This state-of-the-art facility provides world-class facilities for pulping, IQF, bottling, tetra packing, modular cold storage, warehousing and advanced testing lab. It enables basic and supply chain infrastructure, cluster farming and is ably backed by field collection centers, self-help groups and individual farmers.

From seed to shelf, Srini Food Park facilitates end-to-end food processing with beneficial forward and backward linkages. On par with techno-intensive software parks, this new-age facility is equipped with Central Processing Centre and Primary Processing Centres. It aims at becoming a pioneering infrastructure enabler and facilitator for the Food Processing Industry.

Primary Processing Centre

- ♦ Cleaning / grading / sorting
- ♦ Weighing & Packing

- ♦ Collection vans

Central Processing Centre

- ♦ Multi fruit processing line-aseptic filling
- ♦ Sorting / grading / washing
- ♦ Cold storage (Modular multi-product RH controlled with - 20 to + 18 C)
- ♦ Individual quick freezing
- ♦ Dry warehousing
- ♦ Copacking facility - tetra pack & pet bottling line
- ♦ Labelling
- ♦ Repackaging

Corrugated Packaging's & Logistics

We are manufacturers & exporters of corrugated boxes that are robust in construct and are with considerable increase in efficiency and production. We have been producing efficient boxes of between 4 - 6 lakh pieces every month (3 ply, 5 ply and 7 ply) from our fully deployed automated plant. Our team has immense knowledge, in depth industry understanding & modernized product development capabilities with an experience of decades. We engineered these plants that meet the demanding needs of modern day industries. Our entire corrugated box making pass through stringent quality mechanisms with machineries from Japan and China.

Right from the reel stand to the cut off unit, each unit of the plant is so designed, to operate in harmony with one another resulting in enhanced efficiency and streamlined operation.

Logistics has been vital in today's world. With the economy opening up, and foreign companies doing more business in India, our transport team are all geared up to meet new challenges with our own vehicles.

Our objective always has been

- ♦ *Prompt & Positive response*
- ♦ *Team Performance*
- ♦ *On time delivery of goods*
- ♦ *To reduce customer complaints*
- ♦ *With a mission to make continual improvement in all aspects.*
